SYSTEM FURNITURE

PRICUSS SYSTEM

We know that sometimes not all office environments are meant to be the usual, and there is a demand for something little more personal. Hence the research and development of PRICUSS, a revolutionary concept that change the way you envision a working environment. We have built a system that is open for many possibilities, and the choice to utilize PRICUSS is open for you to explore.

CONTESSA SYSTEM

CONTESSA SYSTEM is conceptualized to meet the rapid changing needs of today's ever progressive office. Its provide intelligent solutions to your office space planning and also creates superb outlook to your working environment.

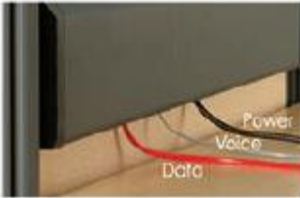

CONTESSA SYSTEM

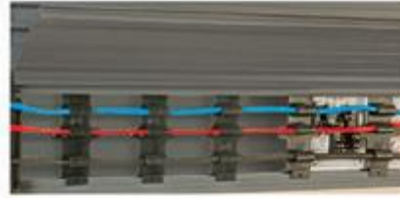

Accessories file is the answer to various stationary conveniences including telephone tray, pencil tray, paper tray, photo tray and document rack.

Open shelf allows easy access and storage space

Hidden power, voice and data sockets could be easy access by the user.

The panel provides spacious and systematic internal compartments for cable management of energy and communication sources such as power, voice and data.

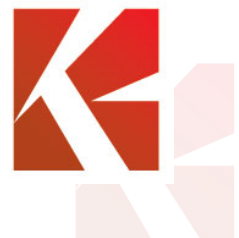

Cables run through the pole for neater wire management.
